# History and Theory
# of Planning
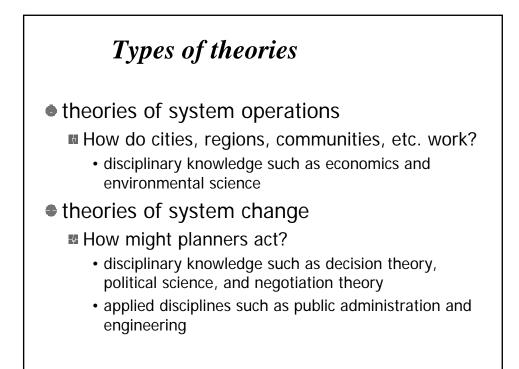

Why do we do what we do?

What is planning?

- a universal human activity involving the consideration of outcomes before choosing amongst alternatives
- a deliberate, self-conscious activity

Primary functions of planning

- improve efficiency of outcomes
  - optimize
- counterbalance market failures
  - balance public and private interests
- widen the range of choice
  - enhance consciousness of decision making
- civic engagement
  - expand opportunity and understanding in community

What is the role of history and theory in understanding planning?

- planning is rooted in applied disciplines
  - primary interest in practical problem solving
- early planning theories emerged out of practice
  - planning codified as a professional activity
  - originally transmitted by practitioners via apprenticeships
- efforts to develop a coherent theory emerged in the 1950s and 60s
  - need to rationalize the interests and activities of planning under conditions of social foment
 - the social sciences as a more broadly based interpretive lens

Types of theories

- theories of system operations
  - How do cities, regions, communities, etc. work?
    - disciplinary knowledge such as economics and environmental science
- theories of system change
  - How might planners act?
    - disciplinary knowledge such as decision theory, political science, and negotiation theory
    - applied disciplines such as public administration and engineering

Pre-Modern Planning:
Focus on Urban Design and Street System

1682	Philadelphia plan	Grid system & neighborhood parks	William Penn Thomas Holme
1695	Annapolis plan	Radiocentric	Francis Nicholson
1733	Savannah	Ward park system	Oglethorpe
1790	Washington	Grand, whole city plan	Pierre L'Enfant
1852-1870	Paris	Model for "City Beautiful"	Napoleon III; Haussmann
1856	Central Park	First major purchase of parkland	F L Olmsted Sr

PLAN of the City of WASHINGTON.

George Town

POTOMAK RIVER

EASTERN BRANCH

Lat: Capitol 38, 53, N.
Long: ———— 0: 0.

New Urban Forms

1869	Riverside, IL	Model curved street "suburb"	FL Olmsted Sr Calvert Vaux
1880	Pullman, IL	Model industrial town	George Pullman

Federal Government

| 1876	"Munn v Illinois"	US Supreme Court upholds regulation of private enterprise
1887	Interstate Commerce Commission	First federal regulatory agency
1892	US federal study of slums	First federal action on city problems

The Industrial City

The Industrial City

Response to the Emerging Industrial City: The Public Health Movement

| 1867	San Francisco	First modern land-use zoning in US (forbad slaughterhouses in geographic districts)
1867/1879	New York City	First major tenement house controls
1879	Memphis	60% of city flees from yellow fever; of those who remain, 80% get sick; 25% die

The Rise of a Social Conscience

1888	"Looking Backwards"	Promotes city and national planning	Edward Bellamy
1890 1892	"How the Other Half Lives" and "Children of the Poor"	Focuses on slums and poverty	Jacob Riis
		1889 Hull House in Chicago	Jane Addams

Garden City Movement

1898	"Tomorrow: A Peaceful Path to Real Reform"	anti-urban, agrarian	Ebenezar Howard
1903-1920 1919-1934	Leetchworth Welwyn	Two garden city projects	Welwyn introduces superblock

1930 Plan for Greenbelt MD

City Beautiful Movement

1893	Columbian Exposition	The "White City"	Burnham, Olmsted Sr,
1902	McMillan Plan for Washington DC	Update of L'Enfant's Plan	Burnhan Olmsted Jr
1906	San Francisco Plan	First major application of City Beautiful in US	Daniel Burnham Edward Bennett
		1909 Chicago Plan	Burnham
		First metro regional plan	"Make no little plans; they have no magic..."

Professionalization of Planning

- 1901
    - NYC: "New Law" regulates tenement housing
- 1907
    - Hartford: first official & permanent local planning board
- 1909
    - Washington DC: first planning association
    - National Conference on City Planning
    - Wisconsin: first state enabling legislation permitting cities to plan
    - Chicago Plan: Burnham creates first regional plan
    - Los Angeles: first land use zoning ordinance
    - Harvard School of Landscape Architecture: first course in city planning

"Canyon Streets" in NYC: targets of zoning

New York City Zoning Maps, 1916

Progressive Movement as Reform

- Reaction against political and economic
  - influence of corporations; monopolies (Rockefeller)
  - influence of corrupt ward bosses (Tamany Hall) because of dispersed, decentralized power of elected officials
- Loss of control of central cities by elites as democracy spread
  - elites moving to streetcar suburbs; dislocation of economic and political power
- Emergence of corporate models of management
  - strong executive leadership
- Rationalize and professionalize city governance
  - rationalize city service provision and infrastructure development
  - civil service
  - depoliticize city

The City Efficient: Developing Tools for Planning

- 1913
  - Massachusetts: planning mandatory for local gov'ts; planning boards required
- 1916
 - New York: first comprehensive zoning ordinance
- 1917
  - American City Planning Institute established in Kansas City
- 1922
  - Standard State Enabling Act issued by US Dept of Commerce
 - Los Angeles County establishes planning board
- 1925
  - Cincinnati: first comprehensive plan based on welfare of city as a whole
- 1926
  - Euclid vs. Ambler Realty Co: Supreme Court upholds comprehensive zoning

Zoning Map of Zion, Illinois, *c. 1920*

ZONING DISTRICT MAP
CITY OF ZION

- **1920s**
  - Robert Moses replaces Burnham as leading American planner: "If the ends don't justify the means, then what the hell does?"
- **1928**
  - Standard City Planning Enabling Act issued by US Dept of Commerce
- **1929**
  - Completion of Radburn NJ, innovative neighborhood design based on Howard's theory
  - Harvard: Creation of first school of city planning
  - Publication of Regional Plan of New York and Its Environs
  - Regional Plan of New York completed

Depression
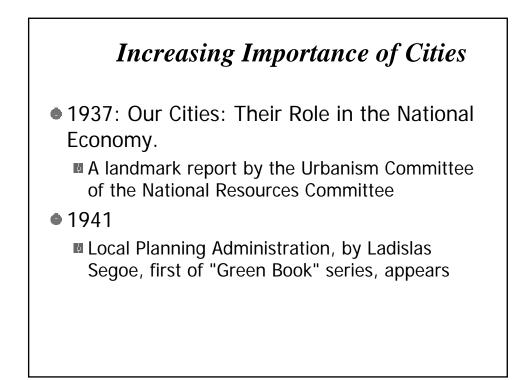

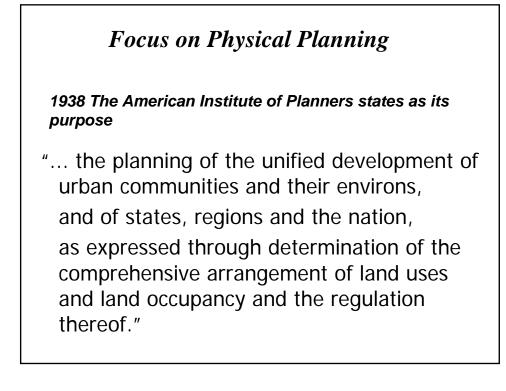

Challenge of systemic poverty

Depression Era Innovations

- *National urban/urbanization policy*
  - TVA
  - National Resources Planning Board
  - New Deal economic management
  - housing and work/welfare programs
- *Regionalism*
  - TVA
  - NY Regional Plan

- *Planning*
  - *1934: American Society of Planning Officials formed*
- *Planning education*
  - emergence of modern planning theories based on rationality
  - Chicago school
  - movement from apprentice-based education to social science-based

Increasing Importance of Cities

- 1937: Our Cities: Their Role in the National Economy.
  - A landmark report by the Urbanism Committee of the National Resources Committee
- 1941
  - Local Planning Administration, by Ladislas Segoe, first of "Green Book" series, appears

Focus on Physical Planning

1938 The American Institute of Planners states as its purpose

"… the planning of the unified development of urban communities and their environs,

and of states, regions and the nation,

as expressed through determination of the comprehensive arrangement of land uses and land occupancy and the regulation thereof."
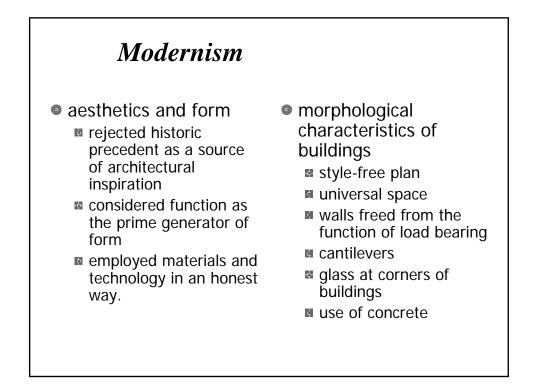

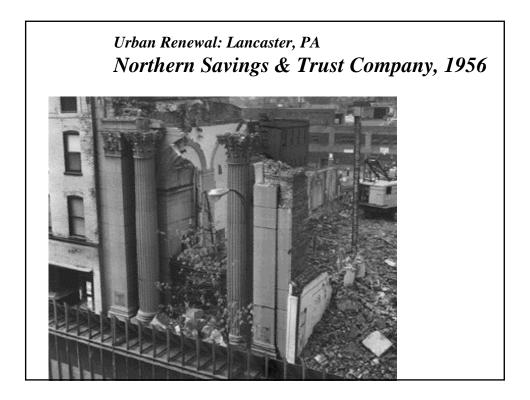

Three Major Shifts

- Migration of African Americans to the north and west during and after World Wars I and II
  - 1960: Washington becomes first major city where residents are predominately minorities
- Migration of "rust belt" residents to "sun belt" areas with the widespread availability of air conditioning
- Migration from inner cities to suburbs

Levittown

William Levitt
Time: July 13, 1950
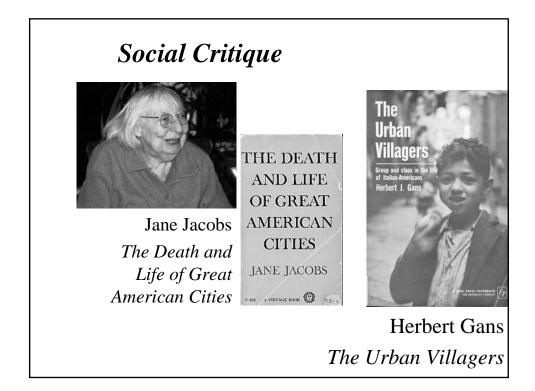

Urban Renewal and General Planning

- **1949** Housing Act (Wagner-Ellender-Taft Bill)
  - First comprehensive housing legislation
  - Aimed to construct 800,000 housing units
  - Inaugurated urban renewal
- **1954** Housing Act of 1954.
  - Stressed slum prevention and urban renewal rather than slum clearance and urban redevelopment as in the 1949 act.
  - stimulated general planning for cities under 25,000 (Section 701)
  - "701 funding" later extended to foster statewide, interstate, and substate regional planning.
- **1954** *Berman v. Parker*
  - US Supreme Court upholds DC Redevelopment Land Agency to condemn unsightly, though non-deteriorated, properties in accordance with area redevelopment plan
- **1964** T.J. Kent publishes *The Urban General Plan.*

Modernism

- aesthetics and form
  - rejected historic precedent as a source of architectural inspiration
  - considered function as the prime generator of form
  - employed materials and technology in an honest way.
- morphological characteristics of buildings
  - style-free plan
  - universal space
  - walls freed from the function of load bearing
  - cantilevers
  - glass at corners of buildings
  - use of concrete

Urban Renewal: Lancaster, PA
Northern Savings & Trust Company, 1956

Lancaster Commercial Center
Completed 1971

West End becomes Charles River Park

Social Critique

Jane Jacobs

The Death and Life of Great American Cities

Herbert Gans

The Urban Villagers

Urban Design Theorists

1960

Image of the City by Kevin Lynch

- basic elements of "imageability"
  - paths
  - edges
  - nodes
  - districts
  - landmarks

Modeling

- **1962** The urban growth simulation model emerges in the Penn-Jersey Transportation Study.
- **1968** Pittsburg Community Redevelopment Model

1870 - Need for more systematic and forward-thinking action
Era of Urban - Concepts linking planning, research, action
Industrialization - Imbedded in architecture, engineering, social work
1915 - Planning as a profession and public institution
Roaring '20s & - Physical determinism: City Beautiful & City Efficient
Progressive Era - Focus on land use & comprehensive analysis
1928 - Regionalizing/nationalizing of planning
The Depression Era - Social science as a tool of planning
& Urban Stagnation - Focus on econ development & social policy

1945 Post-WWII Modernism
Suburbanization & Central City Decline
- Trust in governmental authority
- Modernism, comprehensiveness & rationality
1960
Social Activism, Federal Policy
- Social science strengthened & challenged & Regional Cities
- Planning optimism
- Rise of community voice & social protest 1980
- Political action for reform and transformation Retreat from Policy
Privatization
- Post-modern critique of rationality
- Segmentation of voices of communities into communities with voice
- Focus on interaction, communication, process 2003

Why do we not have a unifying theory of planning? *(Rittel and Webber)*

- goals and objectives, as well as means to achieve them, are often uncertain
  - "wicked problems"
  - concerned primarily with public issues
    - broadly defined groups/clients
    - diverse interests
- planners rarely make decisions but rather advise those who do
- results of most planning activity is discernable only 5 to 20 years after the decision
  - feedback and corrective actions are difficult

What are "wicked" problems?

- A problem for which each attempt to create a solution changes the understanding of the problem.
- Wicked problems cannot be solved in linear fashion, because the problem definition evolves as new possible solutions are considered and/or implemented
- Not the same as an intractable problem

  "One cannot build a freeway to see how it works"

Characteristics of "wicked" problems

- No definitive formulation of a wicked problem.
- No stopping rule.
- Solutions are not true-or-false, but good-or-bad.
- No immediate and no ultimate test of a solution.
- Every wicked problem is essentially unique.
  - all attempts are significant
- No enumerable set of potential solutions
- Every problem can be considered a symptom of another problem
- Can be explained in numerous ways. The choice of explanation determines the nature of the problem's resolution.
- The planner has no right to be wrong.

Hard-to-Formalize, Contextualized, Multidisciplinary, Organizational Knowledge

Rittel, H. J., and M. M. Webber (1984). "Planning problems are wicked problems", In N. Cross (Ed.), *Developments in Design Methodology*, Wiley, pp. 135-144

For every complex problem
there is a simple solution,
and it is wrong.

H.L. Menken

The diversity of theories

		Desired Outcome	
		System Improving	System Transforming
Linkage Between Knowledg e and Action	**Cognitive Rationality**	● Synoptic rationality	● Radical planning
	Procedural Rationality	● Incrementalism ● Comprehensive planning	● Advocacy planning
	Communicative Rationality	● Traditional participatory planning	● Transactive/ collaborative planning ● Mediation
	Self-Reflective Political Action	● Social learning ● Phenomenology ● Contingency theory	● Critical theory ● Social mobilization
	Moral Philosophy		● Utopianism

Cognitive Rationality, Conceptual Basis

- A rational decision is one that
  - the DM knows what ends the DM seeks
    - the public interest
  - the DM considers all the alternatives
  - the DM identifies and evaluates all the consequences of each alternative
  - the DM selects that alternative with consequences that most probably maximizes the desired ends
- Rationality focuses on
  - the quality of decision
  - the subordination of knowledge to values and of action to knowledge

Cognitive Rationality, Schools of Thought

System Improving
Synoptic Rationality

- Meyerson and Banfield

System Transforming
Radical Planning

- Robert Krausher
  - Outside the Whale: Progressive Planning and the Dilemmas of Radical Reform

Procedural Rationality, Conceptual Basis

- Synoptic rationality is essentially impossible
  - cognitive limits
  - resource limits
  - an infinite regression
- Procedural rationality seeks to approximate rational decision making within these limits

Procedural Rationality, Schools of Thought

System Improving
Incrementalism
Comprehensive Planning

- Charles E. Lindblom
  - The Science of Muddling Through
- Martin Meyerson
  - Building the Middle-Range Bridge for Comprehensive Planning

System Transforming
Advocacy Planning

- Paul Davidoff
  - Advocacy and Pluralism in Planning
- David F. Mazziotti
  - The Underlying Assumptions of Advocacy Planning
- Norman Krumholz
  - A Retrospective View of Equity Planning in Cleveland, 1969-1979

Communicative Rationality, Conceptual Basis

- Planning is fundamentally linked to clarification of interests (desired ends)
- The selection of means cannot be isolated from the identification of valued ends
- Both are linked to community, and to the communicative acts that bind community together
- Emphasis on
  - transparency
  - inclusiveness
  - truth-seeking

Communicative Rationality, Schools of Thought

System Improving
Traditional Participatory Planning
